Seven-day rolling average

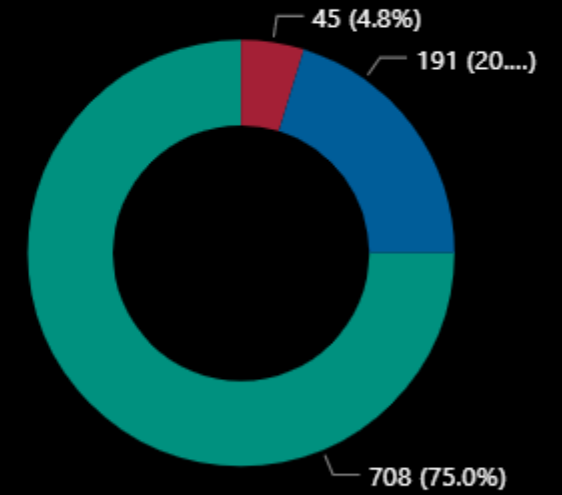

### Total Beds

### ICU Beds

### Ventilators

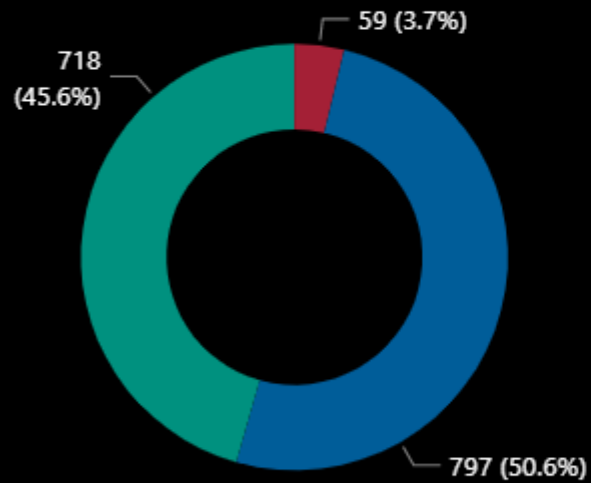

● Available ● Used By COVID-19 Patients ● Used By Non-COVID-19 Patients

## Daily new hospitalizations

Seven-day rolling average

# Trends

- Number of new cases is a fluctuating plateau. We need to continue working to drive down the level of transmission.
- Hospital metrics in Johnson County continue to trend well.

# Schools

- JCDHE School Team is working with districts on several positive cases - most are community exposure
- Partnering to conduct contact tracing
- Goals remain to keep schools open in a safe manner - will continue to monitor cases/transmission very closely

# Messages

- Masks work! Wear a cloth face covering when in a community setting, especially in situations where you may be near people.
- Practice physical distancing even with face coverings.
- Avoid house parties, crowded events, bars, clubs and other indoor settings conducive for transmission.
- Stay home if sick
