CDC | Data as of: May 5, 2021 6:00am ET. Posted: Wednesday, May 5, 2021 1:42 PM ET

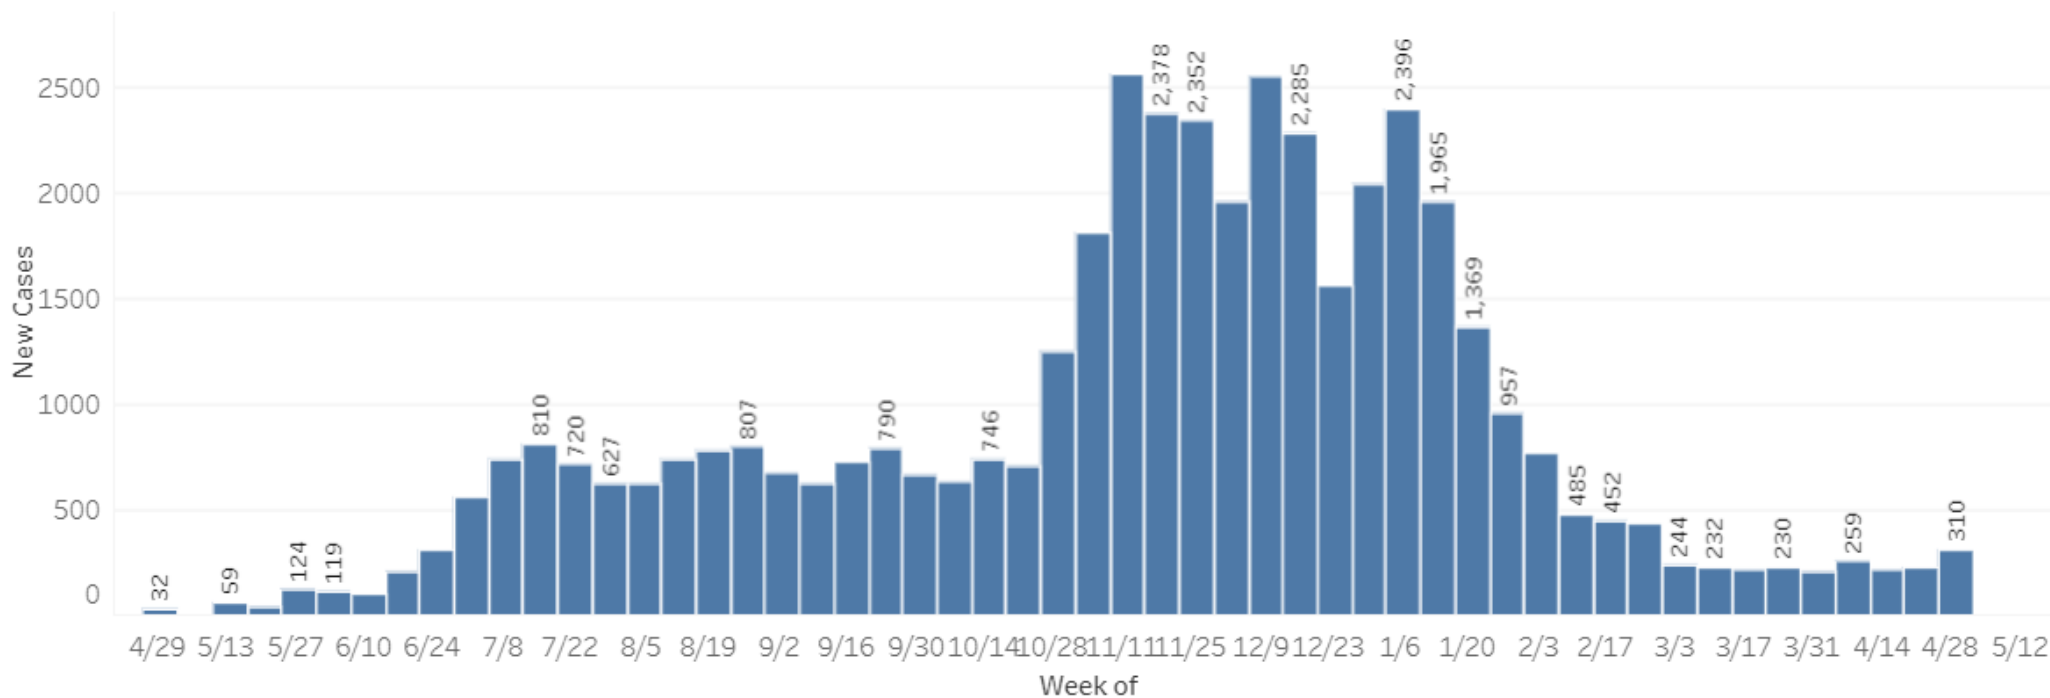

# General Update - Cumulative

- Total number of confirmed cases: **45,512**
- Total number of cases *last 14 days*: **534**
- Total negative results: **251,322**
- Total number of individuals tested: **296,834**

- Total number of deaths: **652**
  - LTCF deaths: 394  
(60% of total deaths)
  - Non-LTCF deaths: 258  
(40% of total deaths)
- Presumed Recovered: **43,780**

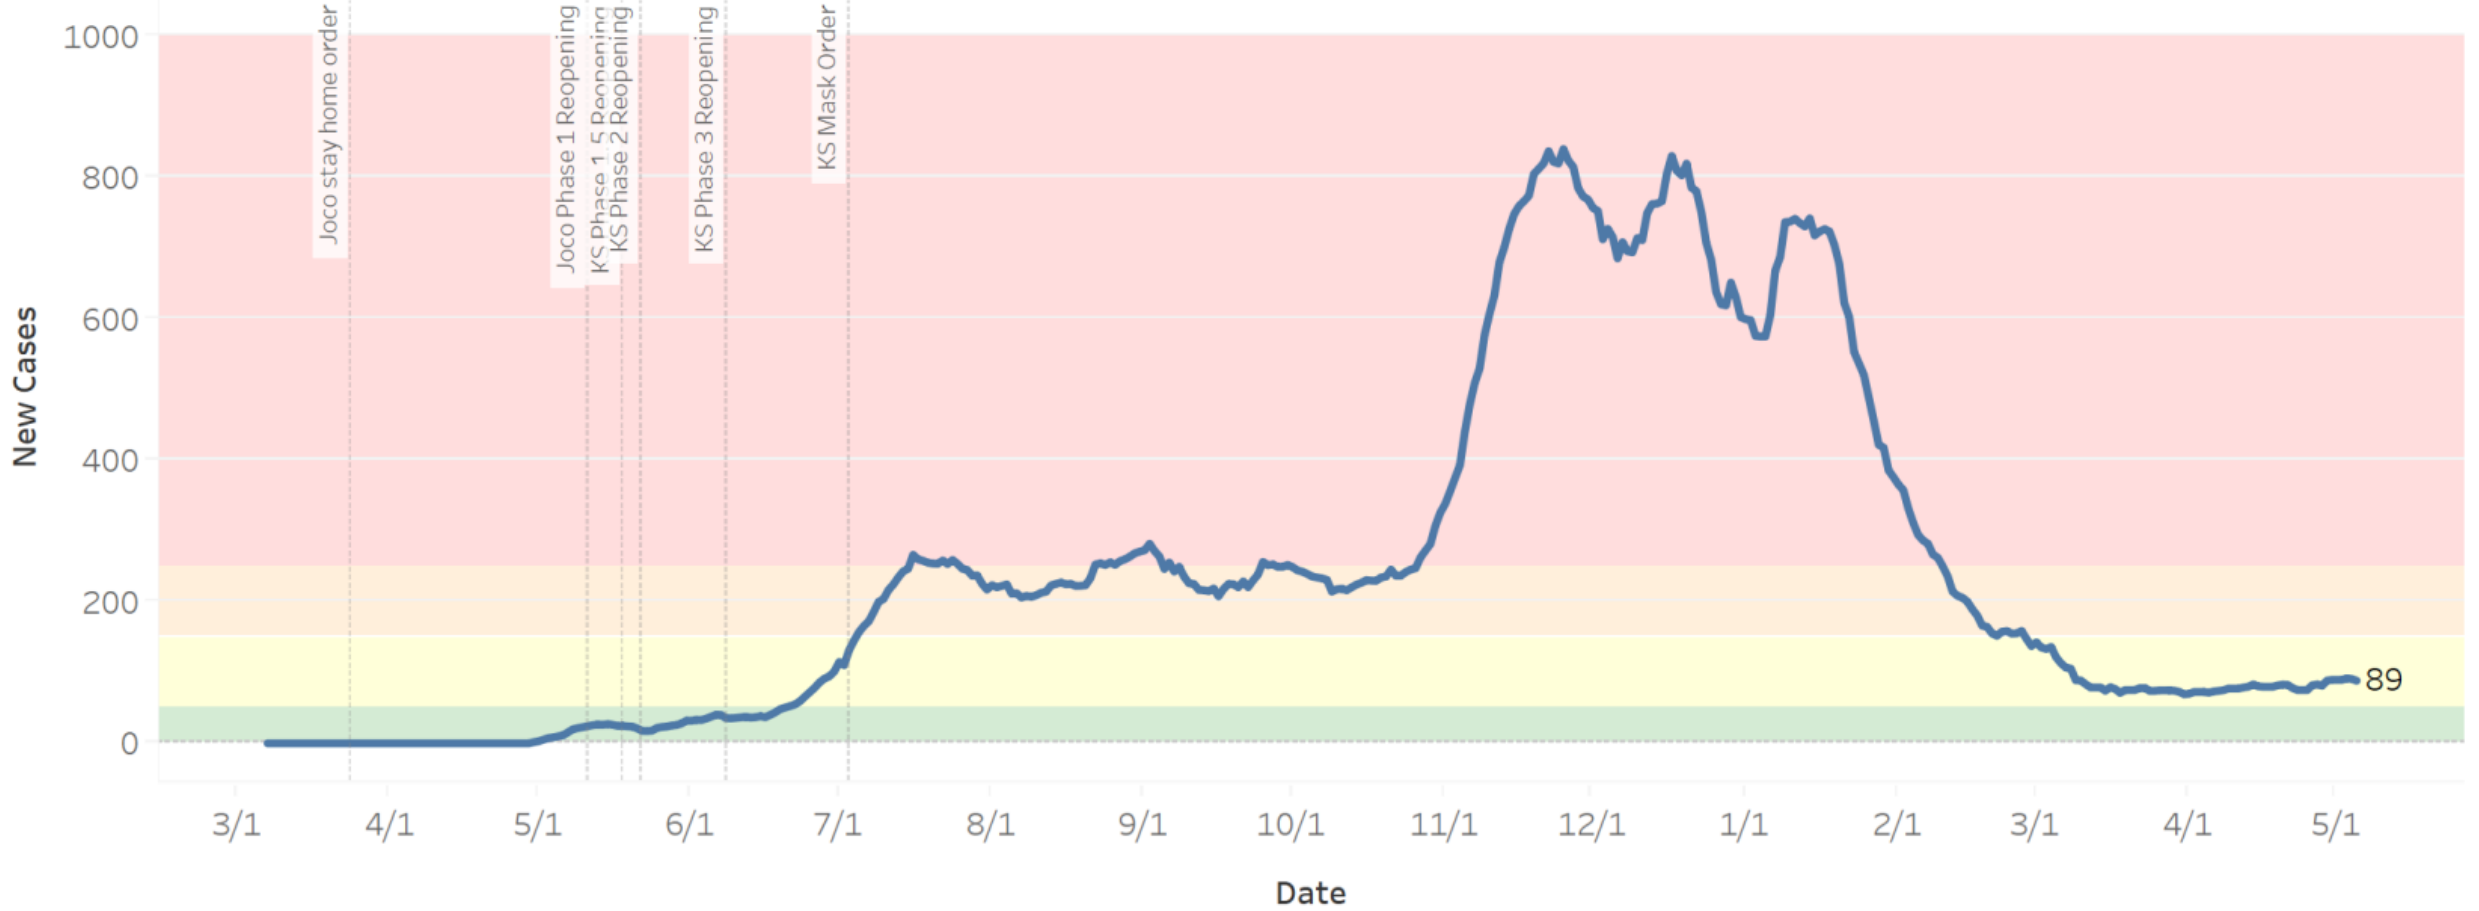

# General Update - Key Metrics

- Number of new cases remain low  
Number of Cases in the past two weeks:
  - Week of 4/18: 231 (33/day)
  - Week of 4/25: 310 (44/day) **+34%**
- Incidence Rate: **89**/100k persons (prior 14 days)
- Percent Positivity: **3.9%**

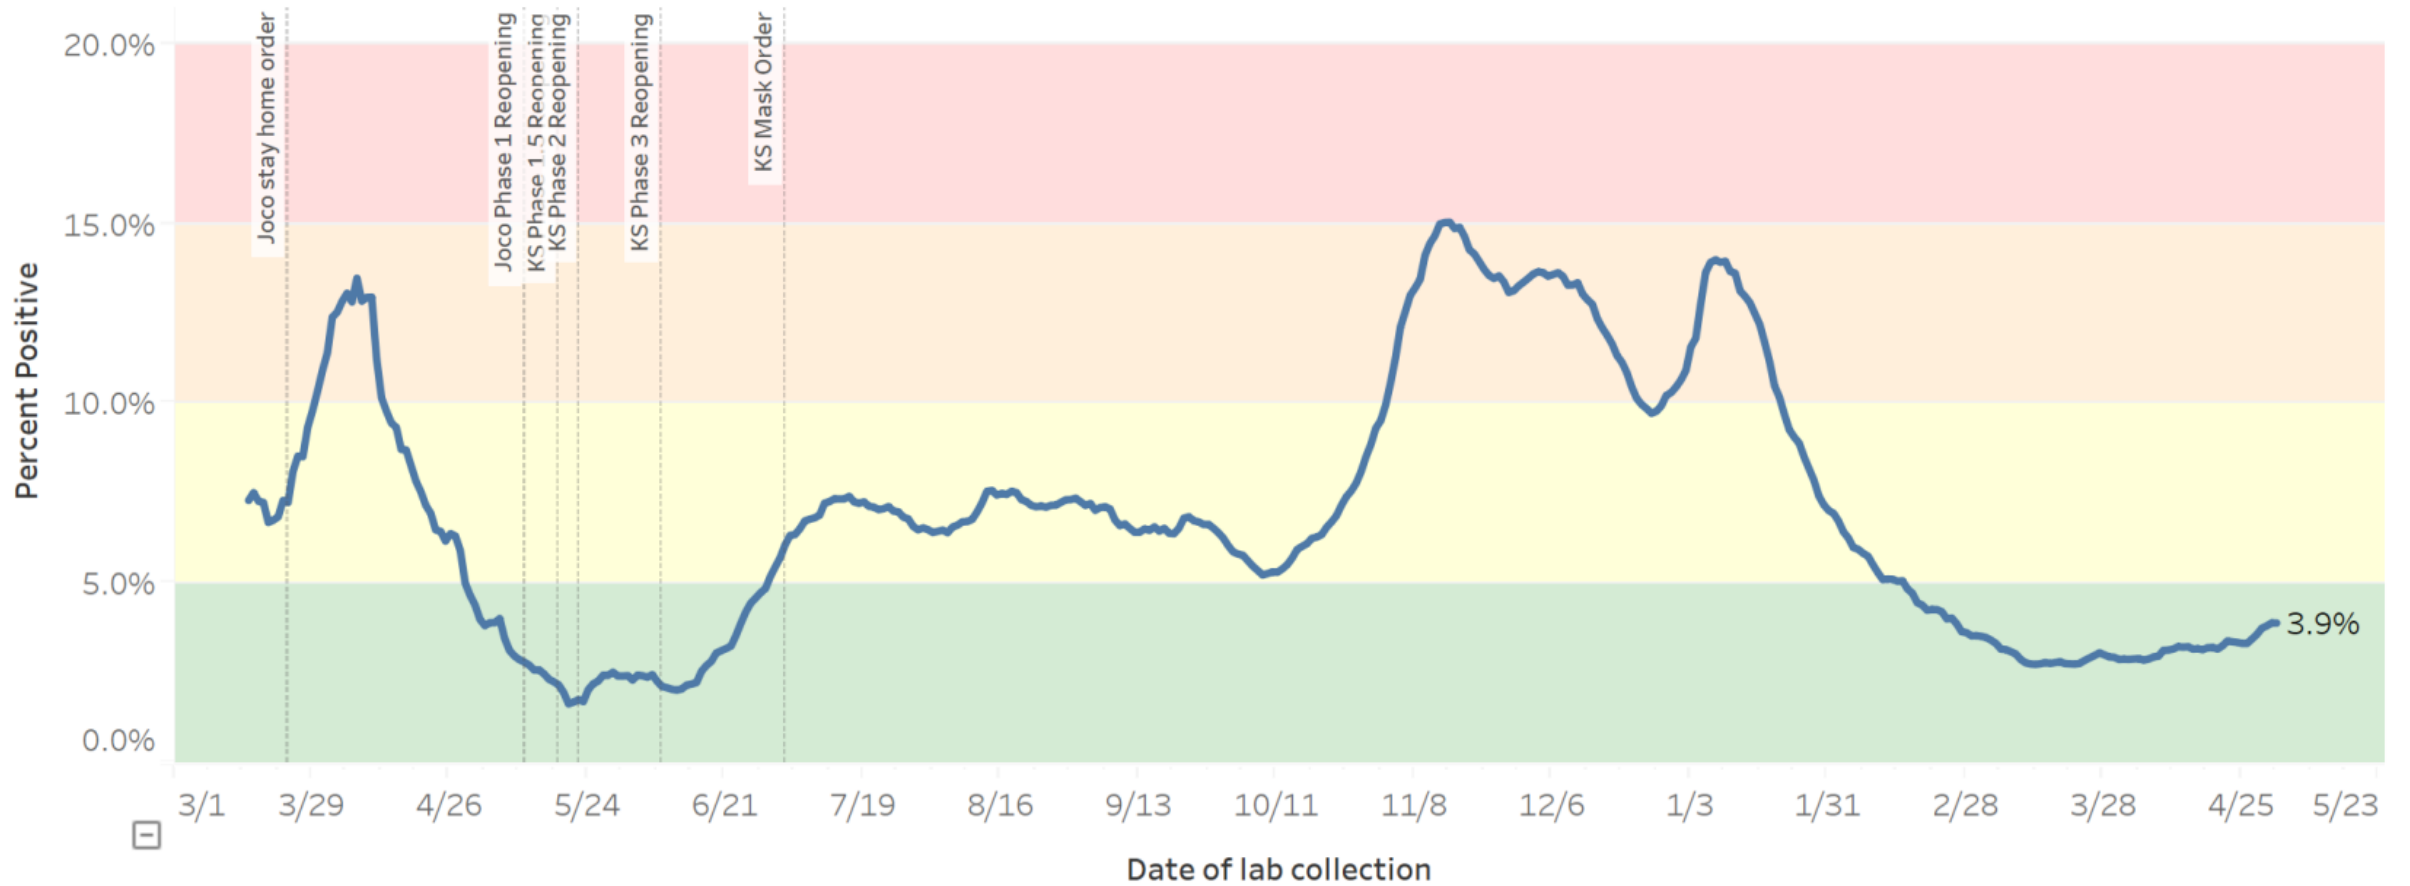

# Incidence Rate

# new cases/100k person over prior 2 weeks

# Percent Positivity Rate

# We Must Remain Vigilant - This is a Marathon

- Masks work! Masks continue to be critical to our fight against the spread of the virus.
- We have not vaccinated enough residents to reach population immunity. Giving 50% of our residents the 1<sup>st</sup> dose is a good accomplishment, but it does not take us to population immunity.
- Our regional counterparts, state of Kansas and the entire country have not reached population immunity.
